

Stat-Mat

Anti-Static Cleaner For Conductive Mats and Hard Surfaces

Stat-Mat is specifically designed for cleaning and maintaining a broad range of static dissipative surfaces. Regular cleaning and detergent compounds destroy the static dissipating properties of highly specialized conductive mats, rendering static control maintenance programs ineffective. Stat-Mat removes dirt and soil while maintaining or increasing static dissipative properties. This product is effective on all types of ESD control matting and hard surfaces such as work benches, storage racks, and countertops. Stat-Mat may also be diluted and used to clean computer screens, computer cases and plexiglass surfaces. Environmentally safe, it is non-corrosive, non-flammable, and biodegradable.

APPLICATION & MAINTENANCE

For anti-static matting or anti-static hard surfaces, simply spray on Stat-Mat and wipe with a clean, low lint wiper.

For computer screens and acrylic surfaces, Stat-Mat should be diluted 1:4 with water. Spray on diluted Stat-Mat and wipe with a clean, low lint wiper.

SPECIFICATIONS

Active Ingredients	Anti-static and quaternary compounds
Electrostatic Decay Time	0.1 Seconds
pH	8.5 - 9.5
Free Ammonia	None
Free Alkali	None
Free Acid	None
Phosphates	None
Abrasives	None
Color	Light Blue
Odor	Mild Detergent
Solubility in Water	100%
Freeze/Thaw Stability	Minimum 3 cycles
Shelf Life	1 year minimum at room temperature
Flash Point	>220°F
Weight Per Gallon	8.3
Biodegradable	Yes
Soil Suspension	Good

SAFETY INFORMATION

Health	1
Flammability	0
Reactivity	0
Personal Protection	B

Read Safety Data Sheet thoroughly before using. May cause irritation in undiluted concentrations. If ingested, give one or two glasses of milk or water. **Do Not Induce Vomiting.** External contact, flood with water. In the event of eye contact, wash with plenty of clean water. **Contact a physician immediately.**
